**Replantation of forests**

1019. SHRI P.N. SUKUL: Will the Minister of ENVIRONMENT AND FORESTS be pleased to state:

(a) whether it is a fact that as compared to the continuing denudation of forests, the actual replantation of trees does not come up even upto thirty percent;

(b) if so, what are the reasons for this inadequacy in replantation; and

(c) the manner in which Government propose to meet the short fall in replantation of trees during the last ten years and by when?

THE MINISTER OF STATE IN THE MINISTRY OF ENVIRONMENT AND FORESTS (SHRI Z. R. ANSARI): (a) As per estimates of the National Remote Sensing Agency, the average annual loss of forest cover between the years 1972—75 and 1980—82 was of the order of 1.3 million hectare. The avarage annual Afforestation in the 8 year period 1974-75 to 1981-82 has been 0.4 million hectare per year. This works out to 30.7 per cent.

(b) The bottlenecks have been (1) Paucity of funds, (2) Inadequate infrastructure, (3) lack of coordination between various Social Forestry Schemes, (4) kegal and administrative constraints in motivating rural poor to take up tree planting, (5) lack of effective voluntary agencies and non-Government organisations and other decentralised structures for promoting people's involvement in the programme and (6) lack of promotional activity by Banks for Social Forestry activities.

(c) An Action Plan based on the decisions of the National Land Use and Wastelands Development Council (February 1986) has been formulated with the ultimate objective of bringing 5 million hectares per annum under Afforestation. The annual target is expected to be achieved around the close of the Seventh Five Year Plan.

(ग) क्या यह भी सच है कि "क" एवं "ख" क्षेत्र को केन्द्र से सभी कार्य अंग्रेजी में ही कराना पड़ता है अन्यथा अनुवाद के नाम पर सभी कार्यों में विलम्ब होगा ; और
